

# The Insights You Seek Served How You Want

## PARTNER BRIEF

Pair the depth and breadth of S&P Global Energy Insights Americas Gas and Power dataset of current and forecasted natural gas prices with Yes Energy's powerful analytics tools and comprehensive historical and real-time electric power market data, to aid your ability to manage market volatility and accelerate better, data-driven decision-making.

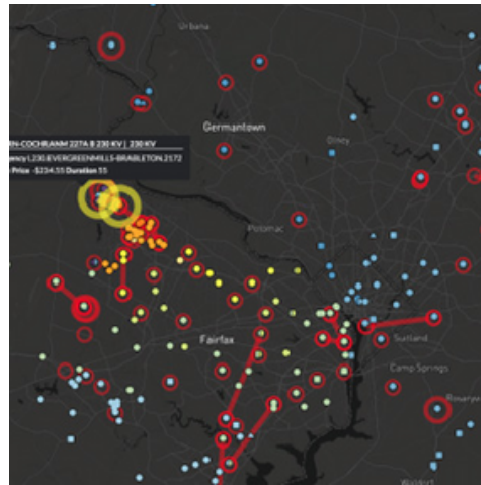

## Yes Energy + S&P GlobalEnergy Insights

### THE CHALLENGE

Power industry professionals are faced with a daily crunch to make high-pressure, high-stakes decisions. From the moment you wake up, you're in a race to analyze and act on mountains of complex data made up of millions of data points.

### THE SOLUTION

Yes Energy is how traders, power companies, and asset managers and developers make sense of the complex, rapidly changing power market. By accessing your S&P Global Energy Insights data on the Yes Energy platform you further reduce your data collection and integration resource requirements, streamline your technology stack, and start your day ready for analysis, visualization, and action.
